Bill

Reviewed and made a few corrections (mostly spelling out acronyms). Also think we should include a pic of Butte on slide 13 (like we did for Libby) and some site statistics – size, history, etc. and can you collapse slides 7 and 8 into one slide?

Sandy

Betsy/Sandy,

I just incorporated Joe's slides and did a rough edit of this ppt. I'm a little worried that it's too much to cover in an hour. Give me your thoughts, if you agree and think we need to focus down.
